Users can also login the system using "iAM Smart" in addition to passwords and digital certificates.

## With iAM Smart mobile application, simply log in with mobile phones

- A single digital identity on one-stop personalised digital services platform
- Users with "iAM Smart+" can sign the applications digitally

No need to enter user name or password

Avoid the hassle of forgetting passwords

## New functions to facilitate form-filling

### e-ME form-filling

System can auto-fill the personal data saved at "e-Me" profile of iAM Smart account.

### Pre-filling of licence information

For renewal or amendment applications, the system pre-fills the particulars of the licensee and the premises in the application form so as to save the input time and avoid data input errors.

### Instant error message

Automatically detect errors at input and issue instant alert to prompt the applicant to make correction.
