生產者責任計劃公眾諮詢

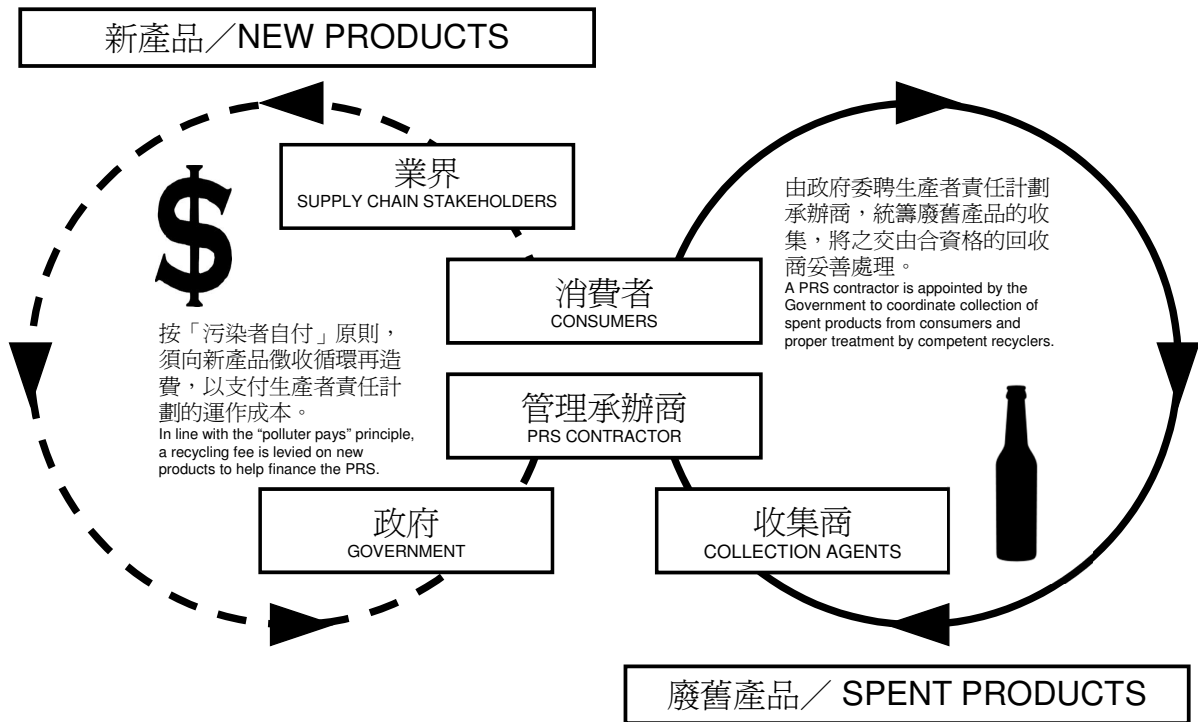

Public consultation: A new producer responsibility scheme on glass beverage bottles

每日產生廢玻璃的數量（公噸） Daily generation of waste glass (tonne)

生產者責任運作模式

Model for producer responsibility

整體策略

Overall plan

第一階段

Phase One

飲品玻璃樽最易於循環再造，

適合優先以生產者責任計劃處理

Glass beverage bottles most suitable for recycling,
good for producer responsibility scheme as a matter of priority

第二階段

Phase Two

食品玻璃樽涉及民生，而且須先清洗才可循環再造，
可待日後再考慮推行

Glass food/sauce bottles relevant to livelihood,
also require cleansing before recycling; deferred until a next phase

其他玻璃不適合與玻璃樽一同循環再造，
不以生產者責任計劃處理

Other glass not suitable for recycling together with bottles,
not to be dealt with through producer responsibility scheme

具體建議

Specific proposals

便利的回收系統

Convenient collection

政府牽頭，委聘管理承辦商

Government to take lead, appoint PRS management contractor

- 更廣泛提供回收桶
More extensive provision of recycle bins
- 負責營運數個地區回收點
Maintenance of several regional collection points
- 與社區環保站合作
Collaboration with community green stations

建議飲品零售商須提供回收資料

Beverage retailers proposed to provide recycling information

高水平處理

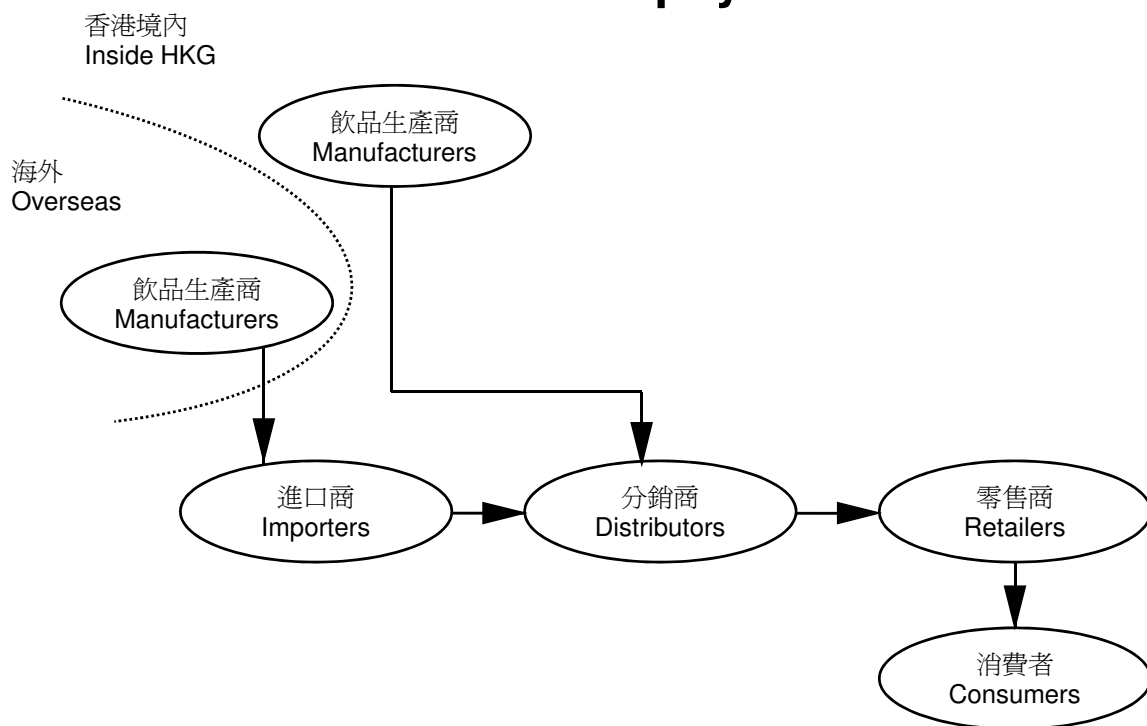

High treatment standards

建議回收商須領有牌照，
確保安全運作，並有能力妥善處理

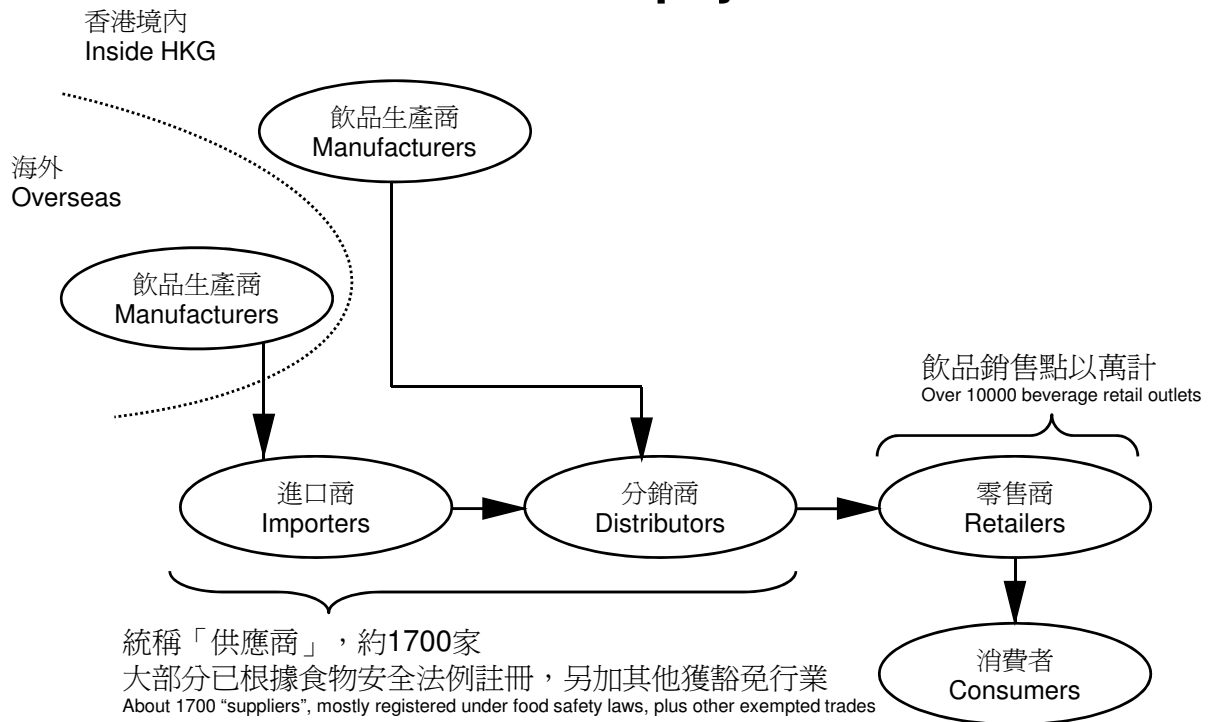

*Recyclers proposed to be licenced
to guarantee safe operations and
to demonstrate capability of proper treatment*
